4. (Unclassified - GLC) Talked with Mr. Louis Fisher, GGR Division, Congressional Research Service, Library of Congress, by way of followup to his conversation yesterday with Mr. Charles Briggs, D/PPB. On the basis of information provided by Briggs I told Fisher that the [ ] item that appeared in the 1974 budget appendix was the return of funds to the Treasury which had been held pending resolution by GSA of litigation with respect to the Agency Headquarters building. Fisher then asked whether any of our financial dealings such as "open bid purchases" or transfers of funds to the Agency were unclassified. He said he understood that the form used for transfers was a standard form but he wondered whether the documentation backing up the form was classified. I told him I would look into this and call him later.
